

FOUR COUNTIES TOP ARKANSAS INCOME RANKS

(October 2020) Four counties led Arkansas income ranks in the last decade, recording levels greater than the state average, according to federal data.

The counties are Benton, Pulaski, Union and Arkansas. They were the only counties to report per capita personal income levels greater than the Arkansas average in 2009 and 2018, U.S. Bureau of Economic Analysis records show.

2009

Benton	121.0% of U.S. average
Pulaski	104.6%
Union	92.9%
Arkansas	87.3%
Saline	83.2%
Sebastian	82.1%
Lonoke	80.3%
State Average	79.3%

2020

Benton	163.3% of U.S. average
Pulaski	94.0%
Union	85.4%
Arkansas	83.2%
State Average	79.4%

Every other Arkansas county recorded per capita personal income less than the state average, according to BEA Regional Economic Accounts data. Lincoln County reported the lowest income (49.6% of U.S.) and rank in 2018.
